

Context:

OPUS Music CIC, based in the Midlands UK, is a leading provider of Music in Healthcare settings practice.

OPUS Musicians are currently engaged in long-term music residencies at Derbyshire Children's Hospital (Royal Derby Hospital), Leicester Children's Hospital (Leicester Royal Infirmary), Nottingham Children's Hospital (Queens Medical Centre) and children's wards at Kings Mill Hospital, Sutton in Ashfield. In addition, OPUS also has delivered a long-standing residency at Sheffield Teaching Hospitals (adults) along with a residency at Nottinghamshire Hospice (adults). OPUS has also been working with young musicians (aged 14-18) to take music-making into elderly residential care settings across Derbyshire.

OPUS musicians visit the healthcare settings on a regular basis to make music for and with patients, residents, visitors and staff in wards, waiting rooms, day rooms, intensive care (including neonatal), high dependency and accident and emergency departments amongst others.

OPUS musicians act as advocates for high quality Music in Health practice, providing training for musicians and healthcare staff, sharing and discussing practice, and bringing together clinical and cultural partners to increase the understanding of the benefits of music-making in healthcare settings. In November 2013, OPUS hosted a Music in Healthcare conference, attended by over eighty delegates from across the UK and beyond. The second of these events will take place on 16th July 2015 at the Royal Derby Hospital, with a third planned for June/July 2016.

Music in Healthcare Settings is an innovative approach to the use of music in healthcare contexts for cultural rather than clinical purposes. It has been pioneered over the last 18 years by musicians of Musique & Santé in Paris.

OPUS Musicians are trained by Musique & Santé through European Commission funded exchange and training programmes. Lead trainer Nick Cutts has vast experience of music in healthcare practice, having delivered and observed practice in healthcare settings in the UK, France, Ireland and Poland. Nick has also been trained as a trainer of musicians in healthcare settings through a partnership between Musique & Santé and Royal Northern College of Music and has delivered highly acclaimed training courses to musicians and healthcare professionals from across the UK and beyond.

3. Four Peer Mentoring days

To take place throughout the programme (dates to be set by yourself in partnership with peers and mentors) to focus on individual strengths and weaknesses.

4. One-day Music in Healthcare Conference
